

## Eelam Research Organisers (EROS)

DEAR COMRADES AND FRIENDS :

The attached documentation of News items will appraise you of the political situation in Ceylon. The burning question of the Tamil masses is now receding to what one would call a bourgeois democratic dialogue between the representatives of the hierarchy of both Sinhalese and Tamils. The willingness of the elected leadership of the Tamils to negotiate with their counterparts while the continuing adamant determination of the chauvanistic government not to give in to the genuine demands of the Tamils have created a new crises.

It is apparent that the masses of Ceylon are witnessing a new dimensional situation between the Sinhalese and Tamils; the Tamil masses are watching a capitulation policy by the bourgeois democratic interest and its non-revolutionary allies and a resistance stand by the Revolutionaries; the Sinhala masses are watching the remnants of its own racial elements inciting racialism to aid the chauvanistic government to divide and rule Sinhalese and Tamils; while both progressives and revolutionaries in the country are pondering and haggling over non-fundamental issues for a proletarian change. We of the EELAM RESEARCH ORGANISERS committed to Socio-Economic and Political emancipation of Tamils in Ceylon, are forced to consider the wider implications of the situation.

It is in this context that we have decided to call for an urgent and immediate meeting of the Tamils living abroad (particularly in London) for a discussion on the present crises. The discussion is to review the outcome of the Presidential Commission and the general consensus given to the Elected Leadership.

The DISCUSSION WILL TAKE PLACE ON SATURDAY (15-9-79) BETWEEN 4 and 7pm. Dr. Sonyer of the Turkish Federated Cyprus will be a special commentator for this discussion.

We shall thank you to participate and express your opinion.
